

Get to know our plans

Gain insights on Medicare Advantage Plans. View example ID cards, learn how you are reimbursed for your services, and where you can find additional resources to support your practice.

Medicare Advantage Plans

Medicare Advantage Plans are an **all-in-one alternative** to Original Medicare and are offered by private companies such as UnitedHealthcare. They include medical benefits and can include other benefits (i.e. dental, vision, hearing, etc.).

Dual Special Needs Plans

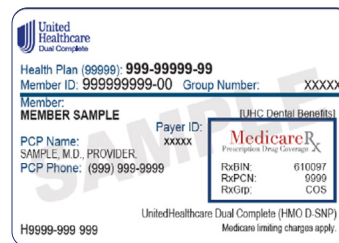

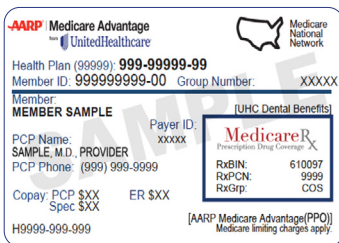

UnitedHealthcare Dual Complete Special Needs Plans (DSNPs) are Medicare Advantage Plans offered to members who are eligible for both Medicare and Medicaid. Because they are Medicare Advantage plans they can include benefits such as dental, vision and hearing.

Getting reimbursed

With Medicare Advantage Plans

UnitedHealthcare Medicare Advantage plans can come in either an HMO or PPO plan type. Through your participation in the UnitedHealthcare Dental National Medicare Advantage Network, you service both of these plan types and might see member ID cards that state either HMO or PPO on them. In most states, when serving members from either HMO or PPO UnitedHealthcare Medicare Advantage plan types, you are paid on the Commercial PPO fee schedules.* Use the contact information on the card to verify the member's eligibility.

*If you participate in the UHC Dental Dual Complete Network for AZ, FL, NY or PA, or the CA DHMO Network, then you will be paid on different fee schedules.
